Prowise iPro Whiteboard Extension Kit G2

The Prowise iPro Whiteboard Extension Kit G2 is designed to simplify the use of our whiteboards. The four-panel whiteboard system can easily be attached to the brackets. Of course, you can still use all functions and connections of the touchscreen.

Easily switch from whiteboard to touchscreen

The whiteboards are securely attached to both sides of the Prowise touchscreen. This compact combination automatically frees up an entire other wall in your classroom. It also allows you to easily switch between your whiteboard and touchscreen.

The advantages at a glance

All of our products are developed at our Development Centre in Budel. The Prowise iPro Whiteboard Extension has also been tested here and has been tailored to your exact needs.

Plenty of space with four panels

You can always post your notes with the four-panel whiteboard system.

Hang up paper

As the whiteboard is magnetic, you can easily hang up a picture or printout.

Easy to use

Easily open and close the whiteboard, without damaging the touchscreen.

5-year warranty

Our service team is at your disposal and is happy to help.

High-quality accessories

With the additional magnetic whiteboard eraser and four Pentel Maxiflo markers in blue, red, green and black, you can get started right away.

Other Prowise accessories

Get the most out of your lessons by using the additional accessories, compatible with your touchscreen. Make your lesson interactive by using learning through motion. Or move the touchscreen and easily switch classrooms.

Prowise MOVE camera

Distance learning

- ✓ Webcam
- ✓ Teams, Meet, Skype, Zoom
